Celebration from our District 7 4th Annual Speech Carnival Extravaganza at our school on May 24, 2018. Celebrating Better Speech and Hearing Month!

Principal's Message

This month I had the pleasure to see many amazing projects and activities taken place in our school. For example, our Family Math Night with the lower grade families, students participating in sport activities with other schools, and technology being used to communicate with students across the country. Furthermore, this month we hosted the successful Annual Speech Carnival Extravaganza. As we approach the end of the school year, please take the next few weeks as an opportunity to reflect over the successes and challenges that we faced this year, but please remember to celebrate the work that we do with our scholars and the impact that we all have on their lives. My administration and I celebrate your work and continuously thank you for your effort and dedication to the students of PS 25.

Principal,
Carmen Toledo-Guerrero

INSIDE OUR CLASSROOMS

Pitch, Hit & Run! Prof. M. Cronin

PS 25 and PS 5 collaborated for the second consecutive year on Friday May 11th to celebrate and take part in a MLB Play ball event. This year, 4th grade students from each school participated in the Scott's "Pitch, Hit & Run" event. In order to participate, students needed to complete all of their school work and follow their respective school's rules. Once there, students rotated through the three different stations, recording their scores for most balls hit, most targets hit, pitching and fastest time running from second base to home plate. Students displayed a tremendous amount of sportsmanship, integrity and spirit throughout the event, while learning to try their best and cheering each other on. We could not be more proud of all of the students that participated and look forward to continuing and expanding this event for years to come and to spread the joy and benefits of baseball to so many children who do not have the opportunity to learn or compete in the South Bronx.

Math Family Night at PS 25

Math Family Night - Prof. J. Centeno, Prof. E. Bonilla and Prof. R. Ventura

Our lower grades celebrated a "Math Family Night" event in which they promoted family outreach and engagement through hands on math activities a few weeks ago. The event was a big success with numerous families participating in the event. The event was possible through the collaboration of Prof. Centeno, Prof. Bonilla and Prof. Ventura and Assistant Principal E. Acabeo. Families were engaged in several demonstrate children improve mathematical reasoning through hands-on activities.

Texas and Bronx Connection! Prof. M. Wagner and Prof. K. Gartmayer

Students in classroom 4-402 have been working on writing letters to their pen pals from Zavala Elementary School in Texas thanks to a collaboration with Apple. Finally, this month students in classroom 4-402 under the supervision of Prof. Wagner and Prof. Gartmayer, had the opportunity to FaceTime with their pen pals in Texas. Scholars at both side of the country were eager to ask questions and put a face to the pen pals.
